Availity Partners With MedEZ ***MedEZ™ Software Offers Claim Integration With Availity***

JACKSONVILLE, FL- Availity, LLC, a leading health information network, today announced its partnership with MedEZ, a leading provider of medical and behavioral health management software, for the integration of HIPAA-compliant health care claim transactions. Health care providers with MedEZ software can now submit claims seamlessly via the Availity® Health Information Network. The partnership provides MedEZ customers with access to one of the nation's largest clearinghouses and provider web portals.

"Availity fully supports integration partnerships with health information technology vendors to meet the changing needs of the health care market," said Russ Thomas, executive vice president and chief operating officer of Availity. "Seamless information exchange is the foundation for interoperability, which results in significant time and cost savings, and improved patient care. MedEZ shares that vision with Availity."

MedEZ provides the health care community with affordable HIPAA-compliant software solutions. MedEZ management software, custom designed with the administrator in mind, automates the daily operations of medical and behavioral health care management centers across the country with functional office automation and billing software, fully integrated electronic records, and superior technical support.

"The essence of our company's mission has always been to help our customers flourish," said Thedy Brezault, president and chief executive officer of MedEZ. "The new partnership with Availity provides direct cost benefits to our clients, facilitates error reduction, and improves overall efficiency. This integration is the first step in what MedEZ expects to be an ongoing effort for process improvement."

About Availity, LLC – Patients. Not Paperwork.®

Availity optimizes information exchange between multiple health care stakeholders through a single, secure network. The Availity Health Information Network encompasses administrative, financial, and clinical services, supporting both real-time and batch exchange via the web, business to business (B2B) integration, and electronic data interchange (EDI). For more information, including an online demonstration, please visit www.availity.com.

About MedEZ

MedEZ™ provides the health care community with affordable HIPAA-compliant health care software programs for management and automation needs. This medical and behavioral health management software boosts healthcare facilities' effectiveness and employee productivity. MedEZ's modules provide a seamless experience that simplifies daily activities such as medical billing, claim submission and Electronic Health Records allowing your employees to focus on patients, not paperwork. MedEZ is privileged to offer products that impact the patient directly, resulting in a healthier, better informed populace. We succeed at this by building a community in which our employees and our customers work together in the spirit of innovation. Our vision is to provide the health care community with high quality, easy to use, cost effective, customizable, user friendly software.

Integrated Software Solutions Corp created and distributes MedEZ, a client-server based software. For more information about this release, please call or e-mail our customer support team at 1.888.MEDEZ.88 (1.888.633.3988) or www.medez.com.
