ESTIMATE YOUR PATIENT’S FINANCIAL RESPONSIBILITY AT THE POINT OF CARE

Availity® CareCost Estimator℠

Improve your cash flow by having the information you need to collect accurately-estimated payments at the time of service. Drawing upon patient benefit and deductible information, current contractual allowances, benefits accumulators and your own diagnosis and procedure codes, Availity® CareCost Estimator℠ forecasts your patients’ financial responsibilities before, at the time of, or after medical service is rendered.

• View from Availity’s Eligibility and Benefits results screen
• Help your patients better understand the out-of-pocket costs associated with their benefit plans
• Collect payment at time of service and reduce accounts receivable
• Minimize late and unpaid patient balances
• Decrease administrative costs associated with repeat billing
• Help your patients become better health care consumers

*Availity CareCost Estimator is also known as CareCalc® in Florida.

To get more information about CareCost Estimator or CareCalc, contact Availity Customer Support at support@availity.com or 1-800-AVAILITY (282-4548).
Use CareCost Estimator to Help Patients Make Better-Informed Decisions

- Estimate costs of care prior to a patient’s arrival in the office so you can discuss treatment options during the patient encounter.
- Calculate patient financial responsibility at the point of service, before the patient leaves the office—when payment becomes 62% less likely to be received.

**DID YOU KNOW?**

Fewer than 52% of surveyed high-deductible health plan members knew they had a deductible, and fewer than 5% knew all the services applicable to their plan. Respondents admitted that they rely on their provider to advise them.

We have realized time, cost and workflow savings by using Availity. **CARECOST ESTIMATOR** has made it easier for our patients as well, since a lot of times they are unsure of their own benefits. We check financial responsibility before patients arrive so we know what they’ll owe and can collect it while they are in the office, which saves us time and money. We love it!

**MORE INFORMATION**

Log in to the Availity web portal and select **CareCost Estimator** or **CareCalc** from the Availity Services menu on the home page.

**ONLINE DEMONSTRATION**

Webinars and animated online demonstrations make it easy to learn. Participate from your desk with your phone and a computer, and we’ll do the rest.
